

FITTINGS

*a different kind of appointment...
in a peaceful, private, pretty place.*

Our French Boudoir (*noun: woman's private dressing room*) adds a touch of elegance to your fitting experience.

Our experienced, certified breast care fitters are committed to putting you at ease with a professional fitting that will inspire trust, confidence and well-being.

Be · you · tiful

Benchmark Atlantic's Image Renewal offers a comprehensive selection of the most innovative post-breast surgery products designed especially to meet the needs and wishes of women who have undergone any type of breast surgery and cancer treatments, whether she is newly diagnosed, in treatment, or a long term survivor.

Intimate Apparel includes: "recovery" post-surgical camisoles and bras; soft, skin-friendly bras for radiation treatments, and an entire scope of everyday fashion camisoles and bras - from sport to ultra-feminine. Our bras are designed with pockets to hold a breast form securely in place. We have a seamstress on staff that can do custom alterations or sew pockets in a favorite swimsuit or bra.

Breast Forms restore symmetry for an even silhouette, weight balance and self-image after a lumpectomy, reconstruction or mastectomy. Textile type forms are worn during recovery and for leisure wear. Our silicone prostheses have the softness and weight that resembles a natural breast. We offer a wide range of full breast forms, balance shapers and swim forms to fit all body shapes, types of surgery, and lifestyles.

Lymphedema Compression Garments assist in relieving post-surgical pain and swelling, and help prevent, treat and manage lymphedema in the hand, arm, breast, chest and trunk area. We provide and measure for both ready made and custom made, day and night wear compression sleeves, gauntlets, gloves, bras, thoracic vests and foam chip pads to address swelling in specific areas.
